

PHOTOGRAPHY

Apart from development and design I am so much attached with photography. And particularly I don't follow a particular style for my clicking, instead I discover multiple techniques and blend different ideas together to create magic.

All of my photos are clicked on mobile and also edited on mobile only.
The software that I used:

- **Light Trails**
- **Illustration Art**
- **Double Exposure**
- **Photo Manipulation**
- **Normal Photography**

Location:

1. Maidan Metro Station, Kolkata, West Bengal
2. Victoria Memorial, Kolkata, West Bengal
